

AI for your tenders Win more contracts

The AI that analyzes your files, drafts your technical proposals, and verifies your compliance to improve the quality of your bids.

75% Time saved

100% Requirements verified

0% Data outside EU

1 - Accelerated Go / No-Go

Access key information. Quickly identify inconsistencies in the tender with direct clarification requests.

→ A clear view to understand expectations before responding

2 - Structure your internal knowledge

Organise files into folders and sub-folders, generate clear summaries to prepare a solid response base.

→ A solid foundation, ready for analysis

3 - Draft responses directly in your documents

To accelerate technical bid writing, our AI responds directly inside your Word and Excel documents.

→ Write faster, with precision and coherent content

4 - Verify your compliance before submission with BidMatching

Score per requirement, points to strengthen, concrete recommendations. Eliminate blind spots.

→ Ensure compliance and maximise your chances

5 - Ask questions to our AI Assistant

Use our AI Assistant, which answers your questions interactively
→ Ideal for quick reviews, spot checks or any question along the way.

Our AI protects your competitive advantage

SECURITY & CONFIDENTIALITY

Data Confidentiality

Your data is never used to train the AI and always stays local.

Secure Data in France - Sovereign Cloud

Your files are hosted on our private servers in France: security at every step.

Green AI

Optimised, low-consumption AI – no GPU overuse, no external API transfer.

On Premises 100% Intranet

For the most sensitive clients: installation on your own servers, fully intranet.

CONTROLLED COLLABORATION

- ✓ Create a team with your colleagues
- ✓ Assign requirements to team members
- ✓ Stay in control, track validations in real time
- ✓ Manage access rights to guarantee confidentiality even within your organisation

Pricing tailored to your needs

Transparent, custom pricing - simply based on the number of tenders.
Discovery phase of 1 to 3 months to test Specgen on your documents.
