

AI for Your Tenders

Our Mission: "Simplify and optimize your tender response process with our AI while ensuring absolute confidentiality."

OUR OFFER

Cutting-edge AI

Our AI is specifically designed to analyze tenders

Confidentiality

The security and confidentiality of your data are our top priority

Collaboration

Work efficiently as a team with our integrated collaborative tools

FUNCTIONALITY

- **Automatic Requirement Extraction**

Save time with direct extraction of requirements from tender documents (PDF, DOCX, or PPTX) for optimal efficiency

- **Compliance Score**

Our AI identifies the best responses to requirements in your knowledge documents and calculates a compliance score for quick decision-making

- **Automatic Responses**

Automatically generate responses for each requirement, ready to be edited and validated by your team

Security and Confidentiality

No Use of Public Cloud

- We do not use public solutions like ChatGPT: our proprietary AI models ensure maximum confidentiality

Secure Data

- Your data is hosted on our private servers: security is ensured at every step

Hosted in France

- Your data is hosted on servers in France, ensuring sovereignty over your data

COLLABORATION

- ✓ Create a team with Unlimited Users
- ✓ Assignment of requirements to team members
- ✓ Edition and validation of AI responses
- ✓ Real-time validation rate tracking
