Specgen

AI for critical environments

SECURITY & CONFIDENTIALITY

On-Premise
In your infrastructure

All AI components, models included, run locally, with no external AI API or cloud

Air-Gapped
No Internet connection

Deployment in a fully isolated network, no data flows to the outside

Confidentiality

Your data is never used to train the AI and always stays local.

Green AI

Low-consumption AI, optimised, no GPU overuse, no external API transfer.

A 3-month discovery phase to validate the gains and scope your On-Premise / Air-Gapped deployment

TSO · IN GROUPE · iter · De Pretto industrie
